Cents & Sensibility: The Practical Guide to Money & Aging by Martin S. Finn, CPA, LL.M and John H. Lavelle, CPA, LL.M, deftly addresses the legal and financial planning needs of those who are rapidly approaching or who have reached retirement age, including the young retirees who are concerned about planning for decades without earned income, as well as the elderly who want to be sure they have the right estate and asset protection plans in place. This helpful volume efficiently devotes space to defensive measures, including conservative investment planning, insurance options and trust planning.

Some of the difficult issues addressed include:

- ▶ Investment strategies that maximize current assets and income
- ▶ IRA distribution planning
- ▶ Housing needs
- ▶ Protecting and providing for a spouse and heirs
- ▶ Planning and paying for long-term care needs

Covering planning for individuals of moderate means up to and including those of significant net worth, *Cents & Sensibility* will also be indispensable to middle-aged Baby Boomers with elderly parents and preserving their eventual inheritance.

Cents & Sensibility: The Practical Guide to Money & Aging is a must for every savvy seniors' library.
